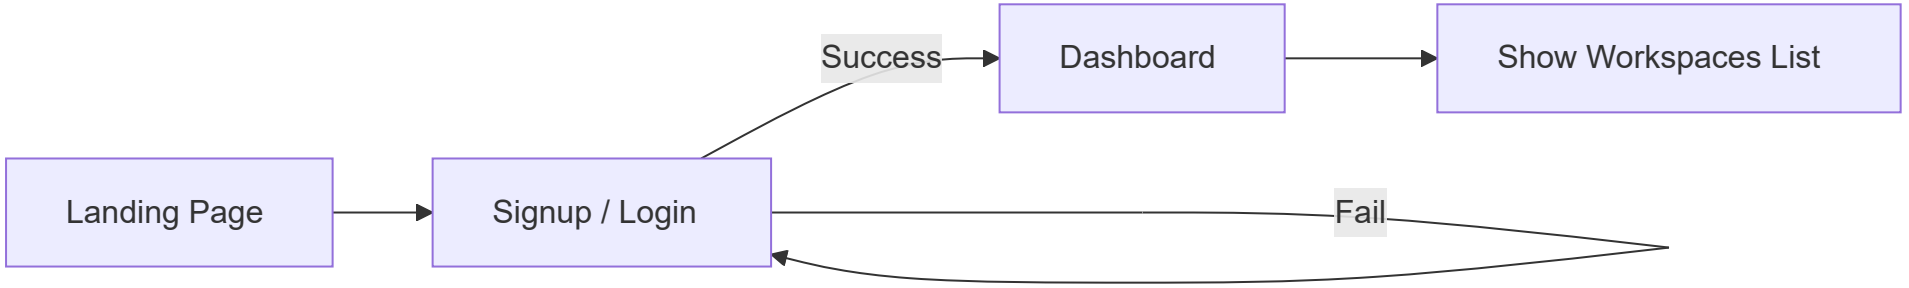
🔄 High-Level User Flow Overview

```
Login → Create Workspace → Create Project → AI Blueprint → Convert to Tasks → Collaborate
```

🧭 1. Global Entry Flow (All Users)

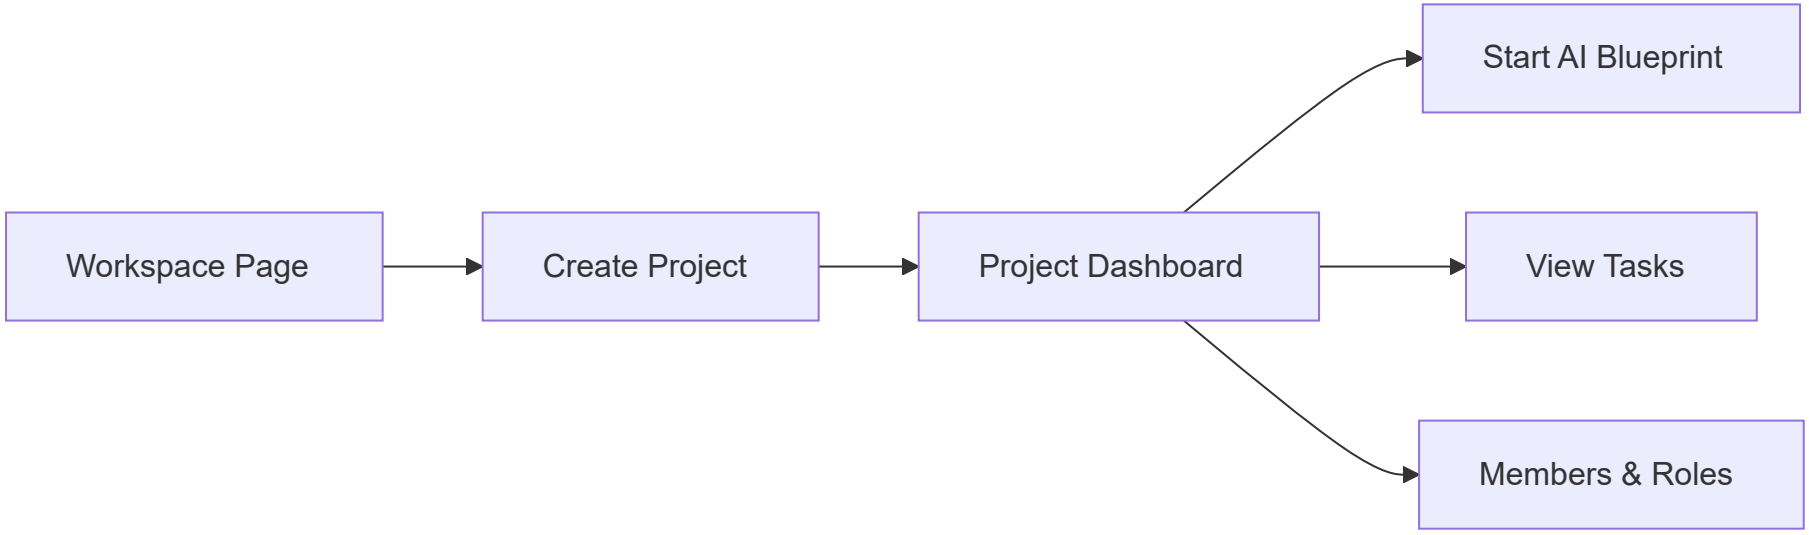


🧠 2. Role-Based Flow After Login

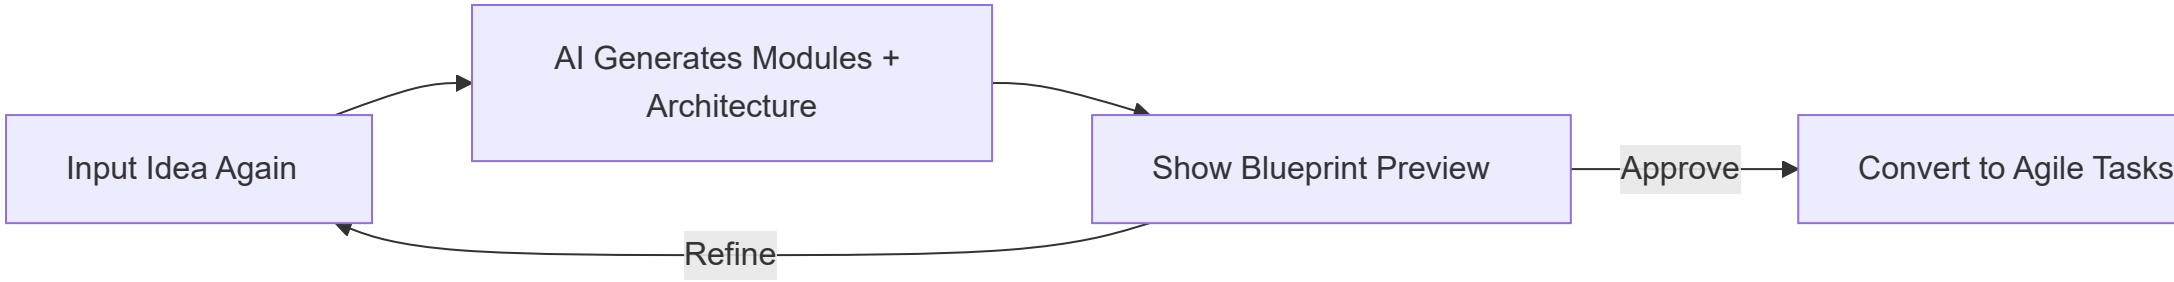
Role	First Screen After Login
Admin	Workspace List + "Create Workspace" button
Member	Workspaces they belong to
Viewer	Workspace / Project read-only view

🧱 3. Workspace Flow (Admin Only)

📁 4. Project Flow (Admin & Member)

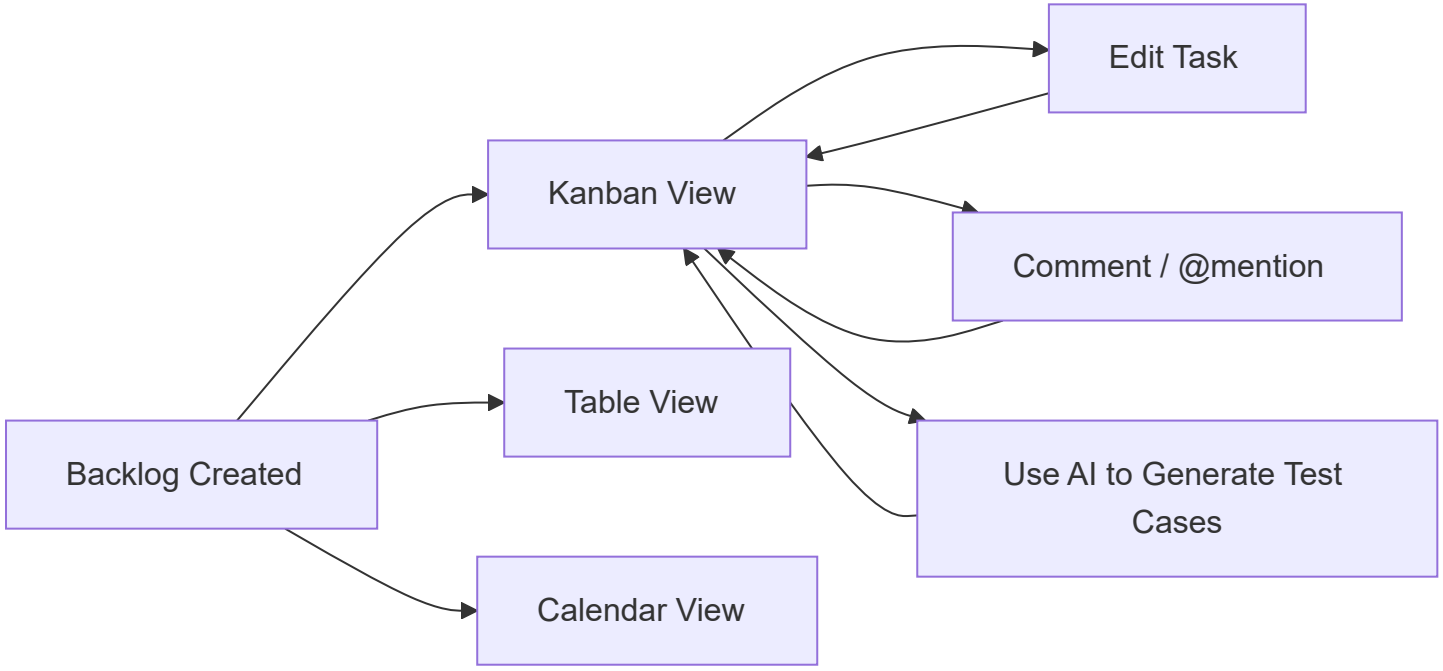


🤖 5. AI Blueprint Flow (Core Feature)

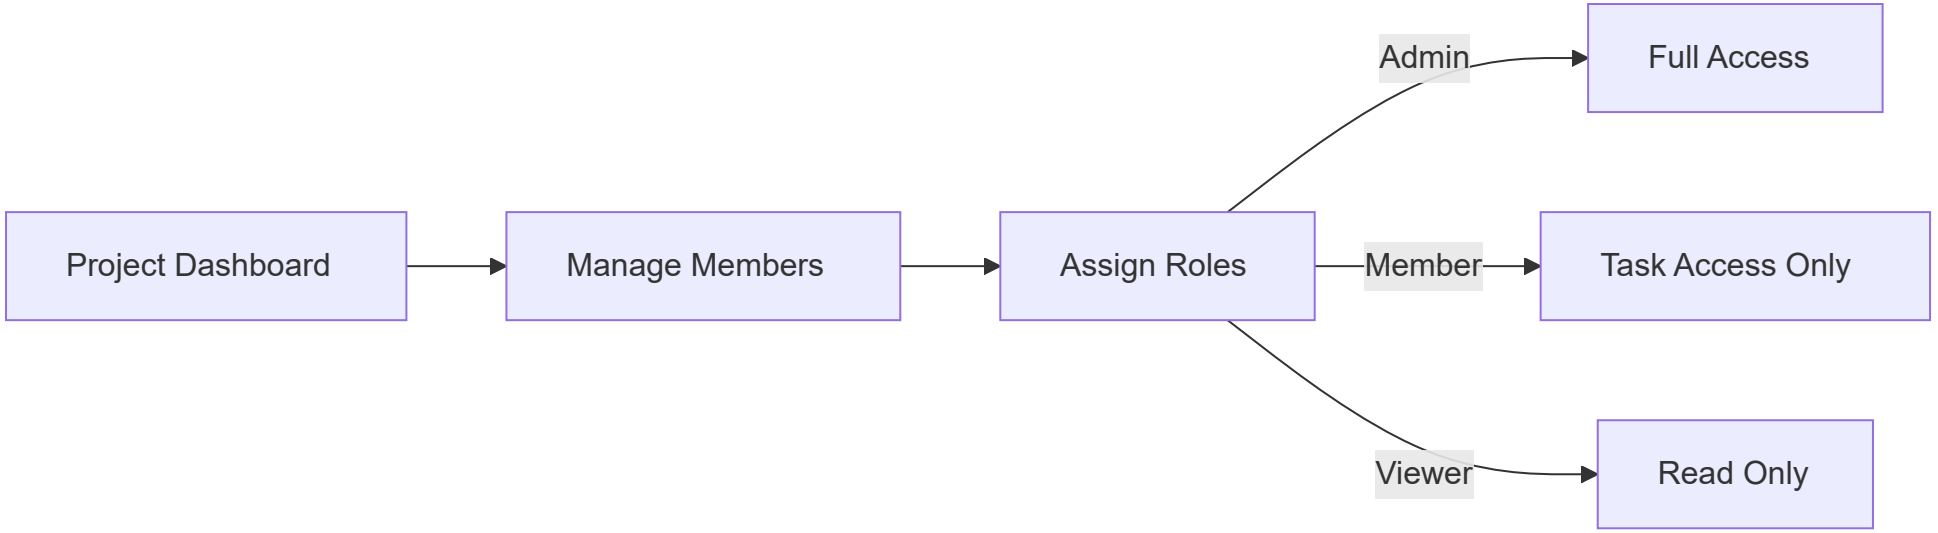


📌 After conversion → System transitions user to **Task Management** automatically.

🧰 6. Task Management Flow



👥 7. Collaboration & Roles Flow



🔐 8. Access Control Rules (Embedded in Flow)

Screen / Feature	Admin	Member	Viewer
Create Workspace	✔	✖	✖
Create Project	✔	✖	✖
AI Generate Blueprint	✔	✖	✖
Edit / Delete Project	✔	✖	✖
View Blueprint	✔	✔	✔
Convert Blueprint → Tasks	✔	✖	✖
Comment on Tasks	✔	✔	✖
Use AI for Test Cases	✔	✔	✖

📱 9. Optional — Mobile Flow (Simplified UI)

```
Login → Workspaces → Projects → Tasks → My Tasks
```

Tabs:

- **Home**
- **My Tasks**
- **Workspace**
- **Notifications**
- **Profile**

---

10. Suggested Next Step

I can now generate:

✔ **Figma-ready wireframes**
✔ **API endpoints & middleware for role-based access**
✔ **Database schema for RBAC**
✔ **Onboarding / Empty State UX ("No workspace yet… create one!")**
